

Touch 360

Wall Mounted Controller

The Ecostrad Touch 360 Wall Mounted Controller offers stylish, hardwired heating control for radiators, towel rails, infrared panels and underfloor heating. Program schedules, monitor energy use, and adjust settings via its sleek touchscreen display or WiFi app control. Securely lock in your weekly schedule with a fully customisable security PIN. With adaptive start, open window detection, boost mode and frost protection, the Touch 360 delivers smart, reliable heating management that looks as good as it performs.

Installation	Hardwired professional installation only. No fitted plug.
Voltage	100-240V AC, 50/60 Hz
Protection	IP21, Class II
Warranty	2 years
Certifications	CE UK CA

Compatibility

The Ecostrad Touch 360 Wall Mounted Controller is suitable for hardwired installations and works with designer electric radiators, electric towel rails, infrared panels, and electric underfloor heating systems connected via a fused spur.

The total load per room must not exceed 3500W. If your heating setup exceeds this limit in a single room, or if you wish to manage multiple rooms, additional controllers will be required. With support for both room and floor sensor configurations, the Touch 360 provides flexible, reliable control for a wide range of residential and commercial settings.

Compatible products

- Ecostrad Opus
- Ecostrad Accent
- Ecostrad Designer Towel Rails*
- Ecostrad Designer Radiators*
- Ecostrad ThermaMesh Underfloor Heating

*An Ecostrad Standard Heating Element of the correct wattage is required. The Vello Thermostatic and TriQ WiFi element are not compatible with the Touch 360.
